COMMERCIAL PROPOSAL & QUOTATION

To
Mr. Shridhar
Jamshedpur, Jharkhand

Date: 05 Aug 2026

Kind Attn.: Mr. Shridhar
Phone: +91-7004310455

Subject: Proposal for Customer Ordering Platform & Inventory / Warehouse Management Software Development

Dear Sir,

Thank you for providing us with the opportunity to submit our proposal for the development of your **Inventory /Warehouse Management Solution**.

As per our discussion and understanding of your requirements, we are pleased to offer a complete solution consisting of:

1. **Customer Android Mobile Application**
2. **Inventory & Warehouse Management Solution**
3. **Centralized Backend & API Platform**

The proposed solution is designed to connect customers and warehouse through a centralized backend platform and simplify ordering, handling, order processing, product management, billing and order tracking.

We hereby submit our commercial proposal for your kind approval and reference.

Thanking You.

SG Softech

Complete Softaware Solution

PROJECT EXECUTION PLAN

The project shall be developed in the following phases.

Phase 1 & Phase 2

Phase 1 will comprise the following :-

CUSTOMER MOBILE APPLICATION

The Customer Mobile Application shall include the following features:

Customer & Product Management

- Customer Registration & Login
- Customer Profile Management
- Browse Medicine & Product Catalogue
- View Medicine / Product MRP
- Search Medicines & Products
- View Product Details
- Add Products to Shopping Cart

Discount & Ordering

- Automatic display of 20% Discount on Total Cart Amount
- Place Customer Order
- Order automatically routed to the appropriate/nearest registered pharmacy
- View Order Status
- View Order History

SG Softech

Complete Softaware Solution

Prescription Orders

The customer shall also have the option to upload a doctor's prescription.

For prescription-based orders:

- Customer can upload the prescription through the application.
- Customer will **not be able to view the final order price initially**.
- The prescription/order will be received by the registered pharmacy.
- The pharmacy will review the prescription and prepare the order.
- Once the pharmacy accepts/processes the order and finalizes the price, the customer will be able to view the final order amount.

Delivery & Payment

- Order Delivery Status
- Cash on Delivery (COD)
- Customer pays the delivery person upon delivery
- Order Completion Status

Inventory / Warehouse Web Application

The Inventory/Warehouse web Application shall include the following functionality:

Inventory/Warehouse Management

- Inventory/Warehouse Registration & Login
- Inventory/Warehouse Profile Management
- Manage Medicine & Product Master
- Add New Medicines / Products

- Delete / Disable Products
- Manage Product Categories
- Add / Update MRP
- Manage Product Availability
- Search Medicines & Products
- Edit Medicine / Product Details

Order Management

- Receive Customer Orders
- View Order Details
- Accept / Reject Orders
- View Uploaded Prescriptions
- Review Prescription Orders
- Prepare Customer Orders
- Generate Customer Order Bill
- Dispatch Order
- Update Order Status
- View Customer Order History

Inventory/Warehouse Dashboard

- Pending Orders
- Accepted Orders
- Orders Under Preparation
- Dispatched Orders
- Completed Orders
- Rejected Orders

SG Softech

Complete Softaware Solution

Administration & Core Level Settings

The Inventory/Warehouse Business Application will also provide administrative functionality for authorized Admin Users.

The Admin User will be able to manage the required core-level settings and operational controls through the Inventory/Warehouse Business Application.

These functions may include:

- Core System Settings
- Inventory/Warehouse Configuration
- Medicine/Product Configuration
- Product Category Management MRP
- Management
- Discount Configuration
- Product Availability Management
- User Management
- Inventory/Warehouse Management
- Order Management
- Prescription Management
- Application-Level Settings
- Business Configuration
- Dashboard
- Operational Reports
- Order Monitoring
- System Status Monitoring

Administrative functions shall be accessible only to authorized users based on applicable roles and permissions.

SG Softech

Complete Softaware Solution

Centralized Backend & API Platform

The Centralized Backend will function as the **core backend application and communication layer for the complete Inventory/Warehouse Management Solution**.

The Centralized Backend **will not have a separate User Interface (UI), web-based dashboard or standalone administrative interface.**

Its primary responsibility will be to operate as the central backend platform connecting:

Customer Mobile Application ↔ Centralized Backend ↔ Inventory/Warehouse Business Application

Centralized Backend Responsibilities

- Customer Application API Management
- Inventory/Warehouse Business Application API Management
- Customer Registration & Authentication
- Inventory/Warehouse Registration & Authentication
- Customer Data Processing
- Inventory/Warehouse Data Processing
- Customer-to-Pharmacy Order Routing
- Nearest Registered Inventory/Warehouse Mapping / Allocation
- Order Processing
- Order Status Management
- Prescription Upload & Processing
- Product & MRP Data Management
- Cart & Discount Processing
- 20% Discount Calculation
- Order Price Management

- Inventory/Warehouse Order Synchronization
- Bill & Order Data Processing
- User Authentication & Authorization
- Database Management
- Application Configuration
- Notification/API Processing
- Centralized Business Logic
- Data Validation
- API Security
- Data Synchronization between Applications
- Inventory/Warehouse Order Assignment
- Customer Order Synchronization

The Centralized Backend shall act as the **central source of communication and business logic between the Customer App & Inventory/Warehouse Business App.**

PHASE 2

PHASE 2 will comprise of the following:-

Warehouse Operations & Inventory Enhancement
Estimated Duration 2–3 Months

Purchase Management

- Purchase Orders
- Supplier Quotations
- Goods Receipt Note
- Purchase Invoice
- Supplier Returns

SG Softech

Complete Softaware Solution

Inventory Management

- Warehouse Master
- Stock Entry
- Stock Adjustment
- Batch Number
- Expiry Date
- Stock Availability
- Stock Movement

Delivery

- Delivery Boy Management
- Delivery Assignment
- Route Planning
- Delivery Tracking
- OTP Delivery

Alerts

- Low Stock
- Reorder Level
- Near Expiry
- Expired Products

Reports

- Purchase Reports
- Stock Movement
- Inventory Valuation
- Delivery Reports

SG Softech

Complete Softaware Solution

Enterprise ERP & Financial Management

Accounting

- Ledger
- Cash Book
- Bank Book
- Journal Voucher
- Payment Voucher
- Receipt Voucher
- Contra Voucher

GST

- GST Reports
- Tax Summary
- HSN Reports

Financial Reports

- Profit & Loss
- Balance Sheet
- Trial Balance
- Outstanding Reports

CRM

- Customer Follow-up
- Loyalty Program
- Customer Wallet

Analytics

- Business Dashboard
- Sales Analytics
- Inventory Analytics
- Purchase Analytics

PROJECT TIMELINE

Phase	Duration
Phase 1	**3 months**
Phase 2	**4-5 months**
Total Product Roadmap	**7-9 months**

SG Softech

Complete Softaware Solution

PROJECT COMMERCIALS

Instead of quoting one amount for the entire ERP, present it phase-wise.

Phase	Amount
Phase 1	**80K (30k web application + 50k mobile application)**
Phase 2	**1.1 lakhs**
Total	**1,90,000 (One lakh Ninety Thousand only) /-**

The above amount represents the **one-time software development cost.**

Important Note: Phase 1 is a complete, production-ready solution that enables the client to start business operations. Phase 2 is enhancement phase and may be undertaken immediately after Phase 1 or at a later mutually agreed time. The scope, timeline, and commercials for each subsequent phase will be finalized before commencement.

SG Softech

Complete Softaware Solution

USER LICENSES & ADDITIONAL USER POLICY

Warehouse Web Application (MVP)

The Phase 1 (MVP) deliverable shall include access for three (3) named user licenses for the Inventory & Warehouse Management Web Application.

The included user accounts may be assigned to any authorized personnel, such as:

- Administrator
- Warehouse Operator
- Billing / Order Processing Executive

The client may create and manage these users with appropriate roles and permissions as provided within the application.

Additional User Licenses

If additional user accounts are required beyond the **three (3) users** included in the MVP, such user licenses shall be provided at an additional cost.

Commercials

Description Charges
Additional Warehouse Web Application User License (Per User) ₹10,000/-

The above charge includes:

- Creation of a new authorized user account
- User access configuration
- Role and permission assignment
- Activation of the user within the licensed application

The client may request additional user licenses at any time after deployment. Such requests shall be subject to the applicable commercial charges and implementation by SG Softech.

Future Licensing

Any future enhancement involving enterprise-level user licensing, branch-wise licensing, concurrent-user licensing, or unlimited-user licensing shall be considered outside the scope of this proposal and may be quoted separately based on the client's operational requirements.

Payment Terms:

50% Advance along with Project Conf irmation	**₹95,000 /-**
Remaining 50% Before Final Deployment & Handover	**₹95,000 /-**

COMPLIMENTARYBUGFIX&SUPPORT

SG Softech shall provide:

One(1)MonthComplimentaryBugFix Support

The complimentary support period shall commence from the **Application Launch / Go-Live Date.**

The complimentary support shall cover bugs/errors related to the agreed project scope .

The following shall be considered chargeable after the complimentary support period:

- New Requirements
- New Features
- New Modules
- New Reports
- Design Changes
- Business Process Changes

- Additional Integrations
- Customizations
- Enhancements

The cost of such work shall be decided based on the requirement and scope of work.

COMPLIMENTARY HOSTING – FIRST YEAR

SG Softech shall provide:

One (1) Year Complimentary Hosting

for the Centralized Backend Application and required database/infrastructure.

The complimentary hosting period shall commence from the date of production deployment / Go-Live.

The complimentary hosting is subject to reasonable usage of the agreed infrastructure.

SG SOFTECH MANAGED HOSTING – AFTER FIRST YEAR

After completion of the first complimentary year, the client may continue hosting the application with SG Softech.

Estimated SG Softech Managed Hosting

Billing	Estimated Cost
Monthly	₹10,000 – ₹12,000 / Month
Annually	₹1,20,000 – ₹1,44,000 / Year

The exact hosting amount within this range shall depend upon:

- Infrastructure requirement
- Application usage
- Database size
- Storage requirement
- Traffic
- Number of users
- Number of warehouse
- Number of orders
- Prescription/document storage

SG Softech Managed Hosting Includes

- Centralized Backend Hosting
- Application Server Management
- Database Hosting
- Database Administration
- Basic Server Monitoring
- Database Monitoring
- Backup Management
- Basic Security & Server Administration
- SSL Configuration / Management, where applicable
- Application Deployment Support
- Hosting-related Technical Support

SG Softech

Complete Softaware Solution

SG SOFTECH SUPPORT & SERVICE AVAILABILITY

For clients who continue hosting with SG Softech:

Service Availability: Up to 20 Hours out of 24 Hours per Day

SG Softech shall provide hosting-related technical support/service availability for up to **20 hours per day out of 24 hours.**

This service availability is subject to:

- Scheduled maintenance
- Emergency maintenance
- Third-party service availability
- Internet connectivity
- Cloud infrastructure availability
- Circumstances beyond SG Softech's reasonable control
- Number of orders
- Prescription/document storage

Important Clarification

The **20-hour service availability shall not be interpreted as a guarantee of 100% uninterrupted server/application uptime.**

Downtime resulting from third-party services, Internet failure, cloud infrastructure failure, cyber incidents, force majeure, scheduled maintenance or other circumstances beyond SG Softech's reasonable control shall be excluded.

SG Softech

Complete Softaware Solution

AWS HOSTING OPTION

The client may choose to host the Centralized Backend on **Amazon Web Services (AWS)** instead of SG Softech hosting.

If AWS is selected:

- AWS account shall be maintained by the client.
- AWS infrastructure charges shall be payable by the client.
- Actual AWS billing shall be based on selected infrastructure and usage.
- SG Softech may assist with deployment and initial configuration.
- Additional server administration/management may be chargeable separately if required.

Indicative AWS Hosting Budget

Billing	Estimated Cost
Monthly	**₹15,000 – ₹20,000 / Month**
Annually	**₹1,80,000 – ₹2,40,000 / Year**

These figures are indicative estimates only.

SG Softech
Complete Softaware Solution

Actual AWS charges will depend on:

- Application server specification
- Database configuration
- SQL Server requirements/licensing
- Storage
- Backup
- Bandwidth
- Number of users
- Number of pharmacies
- Number of orders
- Prescription/document storage
- Traffic
- Additional AWS services

MICROSOFT AZURE HOSTING OPTION

The client may alternatively choose **Microsoft Azure** for hosting.
If Azure is selected:

- Azure account shall be maintained by the client.
- Azure infrastructure charges shall be payable by the client.
- Actual Azure billing shall be based on selected infrastructure and usage.
- SG Softech may assist with deployment and initial configuration.
- Additional server administration/management may be chargeable separately if required.

Billing	Estimated Cost
Monthly	₹15,000 – ₹20,000 / Month
Annual	₹1,80,000 – ₹2,40,000 / Year

These figures are **indicative estimates only**.

SG Softech

Complete Softaware Solution

Actual AZURE charges will depend on:

- Application server specification
- Database configuration
- SQL Server requirements/licensing
- Storage
- Backup
- Bandwidth
- Number of users
- Number of pharmacies
- Number of orders
- Prescription/document storage
- Traffic
- Additional Azure services

CLIENT RESPONSIBILITIES & THIRD-PARTY COSTS

The following costs are **not included in the ₹xx,xxxx/- development cost** and shall be payable separately by the client.

All amounts below are approximate/indicative and may vary depending upon the provider, selected plan, usage, taxes and future pricing changes.

A. GOOGLE PLAY STORE

Google Play Developer Account

Approximate Cost: US$25 one-time registration fee

Approximately **₹2,000–₹2,500**, depending upon exchange rate and applicable payment charges.

Application Publishing

Approximate additional publishing cost: ₹0 per application
The standard Google Play developer registration does not normally require a separate per-app publishing fee.

Account-Related / Future Charges

Actual / As Applicable
Any future Google charges, paid services, verification requirements or other applicable charges shall be payable by the client.

Standard Developer Account Renewal
Approximate annual renewal: ₹0
The standard developer registration is currently a one-time registration fee rather than a normal annual developer-account renewal.

SG Softech

Complete Softaware Solution

DOMAIN COST

Domain Purchase
Approximate: ₹800 – ₹2,000 per year
Actual cost depends on domain extension and registrar.
Domain Renewal
Approximate: ₹800 – ₹2,500 per year
Domain Transfer
Approximate: ₹500 – ₹2,000
Applicable only if domain transfer is required.
Other Domain Services
Examples include:

- Domain privacy
- Premium DNS
- Email forwarding
- Domain restoration
- Other registrar services

Approximate: ₹0 – ₹3,000+ per year
Actual charges depend on the selected registrar and services.

SMS / OTP GATEWAY

If SMS/OTP functionality is required:

Approximate Budget
₹1,000 – ₹5,000 per month
or approximately:
₹12,000 – ₹60,000 per year
Actual charges depend on:

- Message volume
- SMS provider
- Applicable telecom charges
- Taxes

- Sender ID requirements
- DLT requirements, where applicable

Any applicable DLT, sender ID, template registration or regulatory charges shall be payable by the client.

PAYMENT GATEWAY

The current project scope provides for:
Cash on Delivery (COD)
If online payment is required in future:
Approximate Cost
Setup: ₹0 – ₹5,000
Annual Maintenance: ₹0 – ₹10,000
Transaction Charges: Approximately **2% – 3% + applicable GST per successful transaction**
Actual charges depend upon the selected payment gateway and payment method. Payment gateway integration, if outside the approved scope, shall be treated as additional development work.

THIRD-PARTY API SERVICES

Examples include:

- Maps API
- Location API
- Address API
- SMS API
- OTP API
- Email API
- WhatsApp API
- External Medicine/Product API
- Other external APIs

Approximate Budget
₹1,000 – ₹10,000+ per month

or:
₹12,000 – ₹1,20,000+ per year
Actual cost depends on the provider, subscription plan and usage.

EMAIL SERVICE
For transactional emails such as:

- Registration
- Order Confirmation
- Password Reset
- Inventory Notifications
- Customer Notifications
- System Alerts

Approximate Budget
₹500 – ₹3,000 per month
or:
₹6,000 – ₹36,000 per year
Actual charges depend on email volume and provider.

OTHER THIRD-PARTY SERVICES

Any additional third-party service required by the client shall be payable separately.
Examples include:

- WhatsApp Business API
- Google Maps / Location Services
- Cloud File Storage
- Advanced Push Notification Services
- Security Services
- CDN Services
- Analytics Services
- Monitoring Services
- External Business APIs
- Other SaaS subscriptions

SG Softech

Complete Softaware Solution

Approximate Budget
₹1,000 – ₹10,000+ per month
or:
₹12,000 – ₹1,20,000+ per year
Actual charges depend upon the selected service and usage.

THIRD-PARTY COST SUMMARY

Ser vice	Approximate Cost	Billing
Google Play Developer Account	₹2 ,000–₹2 ,500	One-time
Google App Publishing	₹0 additional	Standard publishing
Google Future/Other Charges	Actual	As applicable
Domain Purchase	₹800–₹2,000	Annual
Domain Renewal	₹800–₹2,500	Annual
Domain Transfer	₹500–₹2 ,000	As required
Domain Additional Services	₹0–₹3,000+	As required
SMS / OTP	₹1,000–₹5,000/month	Usage -based
Payment Gateway	2%–3% + GST	Per transaction

IMPORTANT THIRD-PARTY COST CLARIFICATION

The above third-party costs are **not included in the ₹xx,xxxx/- software development cost**.

Where possible, the client shall create and maintain third-party accounts in the client's own name/company.
SG Softech may assist with configuration and integration; however, applicable third-party charges shall be paid by the client directly to the respective service provider.
SG Softech shall not be responsible for:

- Third-party pricing changes
- Tax changes
- Usage charges
- Third-party account suspension
- Third-party service downtime
- Third-party policy changes
- Discontinuation of third-party services

The client shall maintain sufficient balance, subscription or credits with the respective providers to ensure uninterrupted service.

OUT OF SCOPE

The following items are not included in the current ₹xx,xxxx/- project cost unless specifically agreed separately:

- iOS Mobile Application
- Inventory Import from Existing Software
- Barcode Scanner Integration
- Barcode Label Printing
- Online Payment Gateway Integration
- WhatsApp API Integration
- GST Filing / GST Return Integration
- Accounting Software Integration

- ERP Integration
- Hardware Procurement
- Printer Configuration
- Biometric Device Integration
- Additional Third-party API Integration
- AI-based Features
- Additional Custom Reports
- Multi-language Support
- Any feature not specifically mentioned in this quotation

Such requirements may be developed separately based on requirement analysis and additional commercial approval.

ACCEPTANCE CRITERIA

The project shall be considered completed upon successful completion of the following:

- Warehouse Web Application functions according to approved requirements.
- Customer orders are successfully received in the Warehouse Management System.
- Warehouse users can accept/reject orders.
- Warehouse users can prepare, pack and dispatch orders.
- Sales invoices are generated successfully.
- Inventory updates correctly after order processing.
- APIs synchronize successfully.
- UAT completed.
- Production deployment completed.

Upon successful UAT approval/sign-off by the client, the project shall be considered accepted.

SG Softech

Complete Softaware Solution

TERMS & CONDITIONS

- This quotation is valid for **30 days** from the date of issue.
- The total software development cost is **₹xx,xxxx/-**.
- The estimated development period is **minimum three (3) months**, subject to timely approvals, information and cooperation from the client.
- The project scope is limited to the features mentioned in this quotation.
- Any additional feature, module, report, integration, customization or change shall be treated as additional work and billed separately.
- One month complimentary bug-fix support shall commence from the Application Launch / Go-Live Date.
- Complimentary support does not include new development, enhancements, additional reports or feature modifications.
- One year complimentary hosting shall be provided through SG Softech.
- After the complimentary first year, SG Softech managed hosting shall be approximately **₹10,000–₹12,000 per month**, subject to infrastructure and usage requirements.
- The client acknowledges that Phase 2 and Phase 3 modules described in this proposal are indicative future enhancements and are not included in the commercial value of this quotation unless specifically agreed in writing.
- If the client chooses AWS, Azure or another hosting provider instead of SG Softech hosting, all related hosting expenses shall be borne by the client.
- AWS and Azure amounts mentioned in this proposal are indicative estimates and actual charges shall be payable according to the respective provider's billing.
- Google Play Store account charges shall be payable by the client.
- Domain purchase and renewal shall be payable by the client.
- SMS, OTP, payment gateway, email and other third-party service charges shall be payable by the client.
- SG Softech shall not be responsible for service interruptions caused by third-party providers, Internet failure, cloud infrastructure failure, domain issues, Google Play Store issues, cyber attacks, force majeure events or other circumstances beyond reasonable control.

- The client is advised to maintain regular backups of application data.
- Source code ownership shall remain with SG Softech unless otherwise agreed in writing.
- The client shall be responsible for providing accurate business information, product data and other required content.
- Any major change in infrastructure requirements due to substantial growth in users, pharmacies, orders, database size, storage or traffic may result in additional hosting charges.
- The Centralized Backend shall not include a separate UI or standalone web-based administration dashboard. Administrative and operational functions included within the agreed scope shall be provided through the Inventory & Warehouse Management Solution
- The client/admin user shall not require remote access to the hosting server for normal day-to-day business operations. Server-level access shall remain restricted to authorized technical personnel.
- All disputes shall be subject to Jamshedpur, Jharkhand Jurisdiction Only.

FINAL COMMERCIAL SUMMARY

ONE-TIME SOFTWARE DEVELOPMENT ₹xx,xxxx/-

Rupees XXXX Thousand Only
Includes:

- Customer Android Application
- Inventory & Warehouse Management Solution
- Centralized Backend & API Platform
- Database
- API Integration
- Initial Deployment

FIRST YEAR SG SOFTECH HOSTING

FREE

SG Softech
